

PROPERTY FACTS SHEET

Shalom Park Estate

IFT Realty Ltd · Abijo, Ibeju-Lekki, Lagos State

What this document is for

This sheet is the single approved source for everything Propel says about Shalom Park Estate — every advert, every post, every landing page, and every answer the AI assistant gives a buyer on WhatsApp or Instagram.

The assistant answers only from this sheet. It does not guess, estimate, or improvise — and that protects Shalom Park far more than it protects us.

Anything you leave blank is safe. Where a field is empty, the assistant replies "Let me get you the exact figure from the team" and hands that buyer straight to a human. A blank cost you nothing. A wrong number costs you a buyer's trust.

How to complete it

1. Whoever knows the numbers best fills it in — usually your sales lead. About 15–20 minutes.
2. Skip anything you are not certain of, or that is still being decided.
3. Sign the final page and return it. Building of your knowledge base begins the same day.
4. Tell us whenever something changes — Section H covers how.

G

SECTION G

Things the assistant must NOT say

List anything you would rather was never said to a buyer, and we will honour it absolutely. A few Propel already applies by default are pre-filled below — add your own.

Do not say / discuss	What the assistant should do instead
Rental-yield or short-let income projections	State only contractually fixed facts; hand the buyer to a human for anything about returns.
Resale or appreciation estimates	No projected values; route the buyer to a human.
Comparisons with other estates	Describe Shalom Park's own facts only.
Timelines that are not contractually fixed	Give only dates confirmed in writing; otherwise "the team will confirm".

Propel's own standing rule, regardless of the above:

We will not publish, and the assistant will not state, investment-return projections, guaranteed appreciation, or artificial scarcity ("only 2 left!") — unless the scarcity is factually true on the date stated and re-verified weekly. We would rather lose a sale than mislead a buyer in your name.

H

SECTION H

Keeping it true

Prices move, units sell, approvals land. An assistant quoting last month's price to this month's buyer is the single biggest risk in any automated system — so we close it here.

Who notifies Propel when any fact in this sheet changes?	Emmanuel Osijo
Who keeps the available-unit count current, and how often is it updated?	Emmanuel Osijo & monthly
Agreed notification method (WhatsApp group / email)	Both WhatsApp & email
Maximum delay between a change and notifying us	1 week
Frequency of scheduled fact reviews (we recommend monthly, plus immediately on any price change)	Monthly

Until Propel is notified, the assistant answers from this sheet. If a fact changes and we are not told, the outdated answer is not Propel's liability. This is the clause that makes automation safe for both of us.

I

SECTION I

Operations, escalation and lead handling

How a live buyer moves from the assistant to a human, and the settings that keep your response fast and your marketing consistent.

Human sales escalation team

Role	Name	WhatsApp number	Working hours

Escalation supervisor (Head of Sales / MD)	Tobi	07035461661	Emergency overrides

Escalation nudge — if a "hot lead" is unclaimed on WhatsApp within 15 minutes, auto-alert the supervisor by SMS? (Yes / No)	Yes
May the assistant auto-send the estate layout map to verified prospects on WhatsApp? (Yes / No)	No

May it auto-send sample deed / title cover pages? (Yes / No)	No
Construction walkthrough video link for diaspora verification (Google Drive / Dropbox URL)	YouTube URL
Active paid campaigns on Meta / Google? (Yes / No — brief details)	No
Current inbound volume (DMs, comments, WhatsApp per day)	1-2
Average after-hours response time (9pm–7am)	30 mins
Any active discounts, seasonal price slashes or off-plan incentives currently running? (Yes / No — details)	No
